High-End „to go“

## GMP 435 S White-Edition

The brand-new GMP435S W-BLK won't just satisfy your ears, but also your eyes.

This model convinces by its extreme color contrast which is dominating the whole design.

There is no excessive use of design elements, which underlines the technical impression of the headphone.

This makes it the ideal product for people using a headphone not just as a sound machine, but also as a styling accessory – however without wanting to swim with the mainstream.

Technically, this model is identical to its brother, the GMP 435 S. Efficient 35 Ohm drivers grant an easy and fluffy sound reproduction with refreshing dynamics and fine resolution, even when using it with mobile devices which tend to have a low output voltage.

The sound impression is well balanced, the bass section is sharp defined and deep, however without dominating the sound. The open back design brings a wide staging with good positioning. The whole package is completed by valuable, circumaural ear pads. Made from synthetic leather, they are perfect for outdoor use, but also pleasant comfortable for listening sessions at home.

GMP 435 S W-BLK

Technische Daten Technical Data

Übertragungsbereich: <i>Frequency Response:</i>	20 - 27.000 Hz
Nennimpedanz: <i>Nominal Impedance:</i>	35 Ω
Akustisches Prinzip: <i>Acoustical Principle:</i>	offen <i>open</i>
Ohrpolster: <i>Ear Pads:</i>	synthetisches Leder, Ohrumschliessend <i>synthetic leather, circumaural</i>
Andruckkraft: <i>Average pressure on the ear:</i>	~ 3 N
Gewicht ohne Kabel: <i>Weight w/o cable:</i>	240 g
Stecker: <i>Connector:</i>	Stereo-Multi-Klinke 3,5 / 6,3 mm <i>Stereo-Multi-Jack 3,5 / 6,3 mm</i>
