CLASSIC 80

The Classic 80 it's a "dream come true" of all guitar players. It's the most used loudspeaker on 4 x 12 cabinets. Aggressive and at the same time sophisticated, it has an incredible interactivity with overdriven sounds producing fantastic harmonics. All these features made the classic 80 become an ally to the amazing guitar tone lovers.

MODERN LEAD

Selenium puts on the market a truly rock icon. The modern lead uses all its magnet kit to support great power with clarity and a wide range of frequency response.

The right option to powerful guitar solos where the loudspeaker is taken to the extremes reproducing all the executed notes. For the rhythm parts, the modern lead stands out showing its capacity to project the notes with lots of gain and definition without additional noise.
